

Product info

In the ITP data group centres, the IT and electricity distribution spaces are located on top of each other. The side of the centre has a cable chute by the IT space for the wiring of the electricity distribution section. This makes it easy to connect a feed cable from the bottom. The IT space can be equipped with a wide variety of fittings, which enable several different uses. Available for both surface and flush mounting. The surface-mounted model contains the necessary feed-through flanges and a fixed back plate. When flush-mounted, the centre only rises 4mm above the wall surface!

Technical details

• Ue (V)	• Breaker 1-pole C20	
•	230/400	-
• IP	• RJ -connector	
•	20C	
• fn	• Installation	
•	•	Uppo/Pinta
• Icw	• Väri	
•	<5kA	RAL9016
• Material		
•	Ku-Si
